## SKILLS

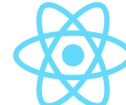

Javascript

HTML5

CSS3

ReactJS

Redux

GraphQL

NodeJS

VueJS

Webpack

PostgreSQL

Heroku

D3

## PROJECTS

### Grassroots • Personally-Developed Web App

[ReactJS](#) | [Node](#) | [PostgreSQL](#) | [D3](#) | [Styled-Components](#)  
[www.grassroots-app-demo.com](http://www.grassroots-app-demo.com)

A volunteer management application, designed to allow campaign staff and their volunteers to keep track of important information and data.

- Planned and implemented a RESTful API architecture using NodeJS
- Designed a relational database schema using a PostgreSQL database
- Built a front-facing client with React, Redux, and Styled-Components
- Integrated D3, ChartJS, and MomentJS libraries to create visual representations of volunteer performance and campaign goal progress

### Qode.club • Team-Developed Web App • Lead Front-End

[ReactJS](#) | [Redux](#) | [Node](#) | [PostgreSQL](#) | [Bcrypt](#) | [Styled-Components](#)  
[www.qode.club](http://www.qode.club)

Qode.club is a crash-course introduction to HTML and CSS, where users learn about coding via interactive lessons and quizzes.

- Cooperatively designed a PostgreSQL database schema with back-end developer
- Integrated external APIs and packages into the application
- Led the front-end team to complete all MVP goals ahead of time
- Utilized express sessions and protected routing to restrict unauthorized users from accessing content
- Built multiple higher-order components, allowing for extreme reusability within the application

## EXPERIENCE

Mbeya, Tanzania | Feb. 2017 - Feb. 2018  
**Public Health Specialist • United States Peace Corps**

- Obtained language fluency during intensive, 3-month long cultural, language, and technical skills pre-service training
- Designed and implemented targeted community health lessons, in native language
- Developed relationships with key influencers in the community, and collaborated with local counterparts and organizations within the community to accomplish goals set by the community government

Akron, OH | June. 2016 - Nov. 2016  
**Deputy Regional Field Director • NextGen Climate**

- Oversaw 20 concurrent volunteers, 5 paid interns, and 2 full-time staff members
- Ensured data integrity and validity by creating and maintaining thorough data collection and management algorithms
- Tracked volunteer and staff performance, and held one-on-ones to advise with technical improvements
